

**COLLEGE OF ENGINEERING**  
**COMPUTER SCIENCE AND ENGINEERING DEPARTMENT**

**CMPS 460 Machine Learning**  
**Spring 2026**

**Instructor Information**

Name: Dr. Abdelkarim Erradi  
Academic Title: Associate Professor  
Office: H07 - C309, College of Engineering Building  
Phone: 4403-4254  
E-mail: erradi@qu.edu.qa  
Office Hours: Tuesday 1pm to 2pm at H07-C309

**TA Information**

Name: ?  
Office: ?  
Phone: ?  
E-mail: ?

**Class/Laboratory Schedule**

L51 MW 03:30 PM - 04:45 PM at H07- College of Engineering C140  
L52 MW 05:00 PM - 06:15 PM at H07- College of Engineering A241

**Coordinator Information**

Name: Prof. Saeed Mousa Ahmed Salem  
Office: H07 - B302, College of Engineering Building  
Phone: 4403-4290  
E-mail: saeed.salem@qu.edu.qa

**Course Information**

Catalog Description: Fundamental principles of machine learning, supervised learning, unsupervised learning, instance-based learning, decision tree induction, Bayesian inference, support vector machines, multi-layer neural networks, and performance evaluation of machine learning algorithms. Hands-on experience with implementing machine learning applications.

Credits: 3 credit hours.

Contact Hours: (3 hour theory, 0 hour lab).

Prerequisites: GENG 200: Probability and Statistics for Engineers, and CMPS 303: Data Structures

**Textbook:** Mohammed J. Zaki, Wagner Meira, Jr., Data Mining and Machine Learning: Fundamental Concepts and Algorithms, 2nd Edition, Cambridge University Press, March 2020. ISBN: 978-1108473989. Available online [here](#).

- *Machine Learning*, Mitchell T, McGraw-Hill, 1997

**Course Objectives:**

Understand and apply existing methods and practices in machine learning to solve problems.

**Course Learning Outcomes (CLO):**

Upon the successful completion of this course, the students are expected to be able to:

1. Understand the basic theoretical concepts and fundamental principles of machine learning.
2. Compare and contrast various approaches to machine learning.
3. Gain hands-on experience with solving a real-world problem with appropriate machine learning techniques.
4. Design, implement, and analyze machine learning solutions.

**Relationship of Course Outcomes to Student Learning Outcomes:**

Course Learning Outcomes (CLO)	Related CS Student Outcomes (SO)						Related CE Student Outcomes (SO)						
	1	2	3	4	5	6	1	2	3	4	5	6	7
1	√						√						√
2	√						√					√	
3	√	√				√	√					√	√
4	√	√	√		√	√	√		√		√	√	

**CS Student Outcomes (CS-SO)**

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.

3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

*CE Student Outcomes (CE-SO)*

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Topics Covered (tentative):

Week	Topics	Chapters
1	Introduction to Machine Learning	
2	Working with Data	
3		
4	Clustering	
5		
6	Classification	
7		
8	Regression and Logistic Regression	
9		
10		
11	Neural Networks	
12		
13		
14		
15	Project Presentations	

### Method of Instruction

The course will be primarily lecture-based.

### Assessment Methods and Grading Policy

Assignments:	15% - 3 assignments
Quizzes:	15% - 4 take 3 (no makeup for missed quizzes)
Project:	15% - Report and Presentation
Midterm Exam:	20% - Week 8
Final Exam:	35%

### ABET Contribution of Course to Professional Component

Math & Basic Science :	10%
Engineering :	10%
Computer Science :	80%
Engineering Design :	0%
General Education :	0%

### Course Ground Rules Class Participation

- Do not hesitate to ask if you have any question about any of the material discussed during the lecture.
- Course deliverables should be submitted on time and following the given instructions.
- **Attendance:** Attendance is mandatory according to University policies and more than 25% absence will not qualify you for the course credit. Keep in mind that late arrival after taking absence will be considered absent for the day.
- **Cheating and/or Plagiarism:** (copying from each other or from other sources, such as the internet) Strict rules will apply in accordance with Qatar University regulations and policies in case of any cheating and/or plagiarism. Check the undergraduate students' handbook for further details on University policies.
- **Blackboard:** Check the course website frequently on Blackboard for updates (e.g. announcements, postings, etc.). All communications must be done through Teams.
- **Due Dates:** It is the responsibility of every student to remember all due dates.

### University Code of Conduct

- In accordance with Article 6 of the Student Code of Conduct at Qatar University, academic violations include a range of actions, one of which pertains to submitting work that is not the individual's own production. This includes using creative artificial

intelligence tools such as ChatGPT to produce content, images, videos, or programming code and presenting it as original work.

- Therefore, students are cautioned that using artificial intelligence tools such as ChatGPT or any similar tools to produce academic content and present it as their own work is considered plagiarism, exposing the student to disciplinary penalties as stipulated in Qatar University's Student Code of Conduct. In light of this, we urge all students to adhere to ethical standards in all assignments and academic work, and to seek guidance from the course instructor when unsure about the proper and ethical use of artificial intelligence sources in completing assignments, duties, and academic tasks.
- As such, a student is expected not to engage in behaviors that compromise their integrity, as well as the integrity of QU. Further information regarding the University Code of Conduct may be found on the web at <http://www.qu.edu.qa/students/code-of-conduct>

### Support for Students with Special Needs

It is Qatar University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their Instructor to ensure that their individual needs are met. The University through its Inclusion and Special Needs Support Center will exert all efforts to accommodate for individuals' needs.

#### Contact Information for Inclusion and Special Needs Support Center:

Tel-Female: (00974) 4403 7972

Tel-Male: (00974) 4403 7946

Location: Student Activities Building

Email: [specialneeds@qu.edu.qa](mailto:specialneeds@qu.edu.qa)

### Academic Support and Learning Resources

The University Student Learning Support Center (SLSC) provides academic support services to male and female students at QU. The SLSC is a supportive environment where students can seek assistance with academic coursework, writing assignments, transitioning to college academic life, and other academic issues. SLSC programs include: Peer Tutoring, the Writing Lab, Writing Workshops, and Academic Success Workshops. Students may also seek confidential academic counseling from the professional staff at the Center.

#### Contact Information for Students Support and Learning Resources:

Tel: (00974) 4403 3870

Fax: (00974) 4403 3871

Location: Female Student Activities Building

E-mail: [learningcenter@qu.edu.qa](mailto:learningcenter@qu.edu.qa)

### College of Engineering Learning Support

The Engineering Success Oasis (ESO) provides academic support services to all students registered in Engineering courses at QU. We provide academic assistance through group and one-on-one tutoring, tailored major programs, and various workshops. Support schedules are announced at the beginning of semesters.

Contact Information for College of Engineering Learning Support:

Females

Tel: (00974) 4403 6380

Email: [CENG.SuccessOasis.F@qu.edu.qa](mailto:CENG.SuccessOasis.F@qu.edu.qa)

Males

Tel: (00974) 4403 6389

Email: [CENG.SuccessOasis.M@qu.edu.qa](mailto:CENG.SuccessOasis.M@qu.edu.qa)

**Sessions' Booking**

Females

1- One-to-one sessions' registration via Simplybook:

<https://crulearningfemales.simplybook.me>

2- Weekly sessions via email invitation from Engineering Success Oasis (ESO)

Males

1- One-to-one sessions' registration via Simplybook:

<https://crulearningmales.simplybook.me>

2- Weekly sessions via email invitation from Engineering Success Oasis (ESO)

**Student Complaints Policy**

Students at Qatar University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the student handbook.

**Declaration**

This syllabus and contents are subject to changes in the event of extenuating circumstances. The instructor (with approval of the Head of Department) reserves the right to make changes as necessary. If changes are necessitated during the term of the course, the students will be notified by email communication and posting the notification on the online teaching tool Blackboard. It is the student's responsibility to check on announcements made while they were absent.
